STATE OF NEW HAMPSHIRE.

To the inhabitants of the Town of Hillsborough, County of Hillsborough, in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at Childs' Opera House, in said town, on Tuesday, the tenth day of March next, at nine of the clock, in the forenoon, to act on the following subjects:—

1. To choose three Selectmen, Town Treasurer, Tax Collector, Highway Agent and Town Clerk, for the ensuing year, Trustee of the Fuller Public Library for the two years ensuing, and all other necessary town officers or agents for the ensuing year.

2. To hear the reports of the Selectmen, Town Clerk, Town Treasurer and Tax Collector to the Town Auditors, the report of the Auditors, Agents, Committees or other town officers heretofore chosen or appointed, and to pass any vote relating thereto.

3. To raise such sums of money as may be necessary to meet the current expenses of the town, and apply upon the principal and interest of the town debt, or pass any vote relating thereto.

4. To see what sum of money the town will vote to raise for the building and repairing of highways, bridges and culverts.

5. To see if the town will vote to raise any money for school purposes other than that required by law, or pass any vote relating thereto.

6. To see if the town will vote to raise a sum of money, not to exceed seventy-five (\$75) for Senator Grimes Post, G. A. R., to be used Memorial Day.

7. To see if the town will vote that no Liquor Agent or Agents shall be appointed for the ensuing year.

8. To see if the town will vote to continue the present laws in force, prohibiting Cattle and Horses from running at large in the highways.

9. To see what sum of money the town will vote to raise to repair and maintain sidewalks for the ensuing year, or pass any vote relating thereto.

10. To see if the town will vote to accept the bequest of one hundred dollars for the perpetual care of burial plat of George A. Richardson in the Lower Village Cemetery (so called).

11. To see if the town will vote to accept the bequest of one hundred dollars for the perpetual care of the burial plat of John M. Curtice in the Lower Village Cemetery, or pass any vote relating thereto.

12. To see if the town will vote to raise any money for the benefit of the Fuller Public Library, or pass any vote relating thereto.

13. To see if the town will vote to raise any money for the purpose of repairing the Burying Ground at the Centre, or pass any vote relating thereto.

14. To take the sense of the qualified voters, whether the alterations or amendments of the Constitution, proposed by the Constitutional Convention, shall be approved.

15. To see what action the town will take in regard to completing the Town History, or pass any vote relating thereto.

16. To transact all other business which may legally come before said meeting.

Given under our hands this twenty-first day of February, in the year of our Lord, nineteen hundred and three.

ALBERTO H. HEATH,	} Selectmen of Hillsborough.
IRA W. JACKMAN,	
EDWIN L. CARR,	

Report of the Selectmen,

For the Year Ending Feb. 15, 1903.

TO THE CITIZENS OF HILLSBOROUGH:

We herewith present for your inspection our annual report for the year ending Feb. 15, 1903, containing the reports of all other town officers including Precinct Officers and School Boards.

After you have carefully read the foregoing report we trust that our official acts will meet with your approval and your criticism will be tempered with the feeling that in all our acts we have endeavored to work for the best interest of our town.

The ordinary expenses of the town show a considerable decrease from former years, leaving a balance of \$4,723.53 of the amount appropriated which has been applied to the reduction of the debt.

The public highways should interest all, as no expenditure of money concerns so many people as that spent in this direction and no officer of the town receives so much criticism as the Highway Agent.

The amount of money we are obliged to raise for the repairs of highways is fixed by law. As no extra money was appropriated for the purpose of breaking roads or building sidewalks, the money expended was taken from the above amount.

We think that a careful scrutiny of the Highway Agent's report will convince anyone that the present Highway Agent has done well with the amount at his disposal.

For several years but little attention has been given to our sidewalks and we do not think it is economy to let them go until it will require a large amount of money to put them into safe or passable condition. A small sum should be appropriated each year for this purpose. The age in which we live is one of progress and activity, and no town can grow and prosper without being abreast of the times.

STONE BRIDGE.

The town was very unfortunate last spring in having the north end of the stone arch bridge at Hillsboro Bridge so badly damaged that repairs seemed impracticable after consulting with engineers that were experts in the business.

The Selectmen could see no other way but to remove that part of the old bridge and build new to correspond with the work on the south side. It has cost more than the estimate, for the reason that to get a suitable foundation, a coffer dam had to be built and a large amount of rock excavation made that was not expected. Owing to the death of one of the contractors, the town has been unable as yet to settle with the estate and there is a small amount due on account of contract.

The subject of taxation is one of vital importance to every citizen and deserves careful thought. We have seen our tax rate for the past few years constantly increasing. While we have perhaps received full equivalent for the money expended, there is a limit, and we believe there should be more voters present and more interest taken when appropriations are made.

We would refer you to the report of the Overseer of the Poor, Board of Health and all other town officers.

Respectfully submitted,

ALBERTO H. HEATH,
IRA W. JACKMAN,
EDWIN L. CARR,

SELECTMEN OF HILLSBOROUGH.

Report of the Board of Health.

To the Selectmen and Citizens of Hillsborough, N. H.

The sanitary conditions of the town have been good. In a few instances where drainage was bad, houses have been ordered connected with the sewer and there are still some which should be connected, but for various reasons these have not been forced to do so.

Of the contagious diseases, two cases of measles only have been reported.

The premises surrounding Loon Lake have been kept in good condition, and the water has been analyzed at the State Laboratory and pronounced good.

Auditors' Report.

The undersigned, Auditors for the town of Hillsborough, have examined the accounts of the Selectmen, Treasurer, Tax Collector, Town Clerk, Highway Agent, Judge of Police Court and Overseer of the Poor, and find all payments properly vouched for.

We desire to call attention to the report of the Selectmen in reference to the trust funds and concur in their suggestions relating thereto. Part of these funds were received a few years ago and turned into the treasury, thus apparently reducing the debt of the town. We understand that most, if not all, of these funds were given to the town in trust with the condition that the income should be devoted to special purposes. As a matter of fact, there has been no income, but the different Boards of Selectmen have fulfilled the spirit of the conditions by paying from the treasury what might be considered the amount of income.

To conform to the provision of the Public Statutes relating to trust funds, we recommend that such of these funds as were accepted without provision for payment of a stated interest, be at once withdrawn from the treasury and invested according to the law, by the Selectmen or a special committee.

As will be seen by the above report, the circulation for the past year has increased about 65 per cent over that of 1901, showing a greater use of the library. We would be glad to see a larger increase in circulation of the "non-fiction" books, so called. It is doubtless true that the majority of reading is done purely for entertainment, and as the library is for the public, we have endeavored to meet this demand, so far as our means would allow, by supplying the best of the new books of fiction.

The recent books on nature and animal life, and even history, are written and illustrated in so much more attractive manner than of old, that they have lost much of their school book style and serve to entertain as well as instruct, and we would like to encourage this class of reading.

We note with pleasure the interest taken by some of our teachers in recommending to their pupils books which pertain to the studies in progress. It adds interest to the studies and shows that we have teachers who are not content to hear recitations, but try to awaken among the scholars a real interest in the subjects and open the way to a broader education than is found in school books alone.

We shall ask the town to raise a small amount for the purchase of books, in order that we may continue the plan of the past year, of frequent purchases.

Respectfully submitted,

		<hr/>
Net income for year ending Feb. 15, 1903		\$2668 23

The income this year is effected in two ways which may need a brief explanation. It will be remembered that at the last annual precinct meeting, it was voted to raise \$1000 by taxation as hydrant rental. This amount has been raised, accounted for under the water department—passing through its books—and in turn transferred to the precinct general account. This money will be used in the payment of current expenses of the precinct.

This transaction increased the earnings of the water department by \$1000 and is in accordance with a note under

the report of the Water Commissioners, printed in the annual report of the town Feb. 1st, 1900.

While this increases the income to a considerable extent, abnormal repairs caused by lightning have tended to reduce it. The work of relaying the damaged lines which stands against "Renewal" but finally transferred to income account, cost \$722.25 and in addition to this were experimental repairs on the same streets in trying to stop leaks to the amount of about \$75. This extra expense has been offset to such an extent by prompt payment of water rents, account of Feb. 1st bills, that if the \$1000 hydrant rental had not been received, the net earnings would be about the same as last year. As a rule, we have received on Feb. 1st bills up to counting day about \$1100 or \$1200, while this year up to date the receipts have been \$1450 for the corresponding time. This extra income will of course necessarily come out of next year's earnings, but we hope that the expenses will be lighter accordingly.

EXTENSIONS.

For many years in autumn we have experienced trouble at the intake, Loon Pond, from leaves and grasses collecting on the screen in the screen-box. It has been a great source of annoyance and quite expensive during the fall months. The trouble has finally been remedied by the extension of the intake into the pond, about 78 ft. 6 in. The result is that no leaves nor grass of any amount has been found on the screen and the cost in caring for the pipe at this end materially reduced.

The cost of this work was as follows:

Labor	\$23 55	
Supplies	64 31	
	<hr/>	\$87 86

This has been charged to "Extensions" and forms a part of the permanent construction account. This expense has been made up entirely in saving trips to the pond.

GATE HOUSE AND HORSE SHED.

The need of a small house over the screen-box at the intake, Loon Pond, has been apparent for a long time, to facilitate the care of the same. The commissioners took this matter under consideration as well as the construction of a small horse shed for the use of the engineer in charge and both the screen-box house and horse shed have been constructed under a contract awarded to Mr. E. C. Rumrill through a committee consisting of Mr. Chas. A. Jones and Mr. Chas. Brockway, both members of the board, for \$160. This amount has been charged to Construction Account and stands on our books under "Building Account."

CONCERNING WATER RATES.

From time to time there has been more or less feeling among water takers that the water rates should be reduced somewhat, raise more of the sinking-fund by taxation and set aside less from actual earnings of the water works; not especially that they thought the prevailing rates excessive, but as we understand, to cause non-water takers to help more in the payment of the water debt. While there is more or less ground for this argument, it should be borne in mind that the property not paying a water tax is a small proportion of the whole; that nearly half of our present sinking-fund set aside for the payment of the water debt (water bonds) has been derived from direct taxation; that in the future, a larger proportion is likely to be raised in this way, as the pipes in the water system must necessarily be getting weaker than when first laid.

This point was well illustrated the past season by the destructive work done by lightning on Wyman and Oak streets, when over thirteen hundred feet of cement-lined pipe was entirely destroyed. While we hope that we may not have a like experience again soon, still it is possible that the cement pipe in any street may be ruined in like manner from lightning during a shower at any time:

Therefore it is wise to have a comfortable cash balance on hand constantly for this purpose or any extensive repairs.

Water takers should remember that they are paying to a certain extent for the convenience of water in their homes—an advantage which the non-water taker cannot enjoy. Further, perhaps citizens of the precinct are not aware that some \$6,000 in sewer bonds become due in 1904. These bonds will have to be provided for in some way. Immediately after the year 1904, we understand that there are \$2,000 due and payable of sewer bonds of a later issue, each year for some years to come. In addition to this, the town increased its indebtedness to a large extent last year which was made necessary in rebuilding the stone bridge.

All of these unusual expenses in precinct and town go to make a very much heavier tax rate and as the rate at present looks pretty high and as the water rates are no higher and in some respects not as high as when the works were owned by a private company, the Board of Water Commissioners has thought best not to change the water rates at present. Naturally the rates will be lower as some of the debts of the precinct are taken care of later on. The vote taken at the last annual precinct meeting bearing on this matter was merely a suggestion or recommendation and read as follows: "Recommended that the water commissioners reduce the rate 25 per cent, if in their judgment, the condition of the sinking fund warrants it."

While the condition of the sinking-fund is necessarily fully up to the requirements, the Commissioners, in view of the foregoing reasons did not think it advisable to make any change in the rates and hope their decision will seem wise to water-takers and meet the approval of the citizens of the precinct.

DAMAGE BY LIGHTNING.

It is not often that so serious damage occurs to the water works as happened during a shower last season,

when lightning entered the main pipe on Wyman street. This is the second time that this line of pipe has been "struck." Water was immediately shut off on the street and it was thought that a few repairs only would be necessary. Repairs were made and water turned on, only to find more and worse leaks in many places and it was only after trying several times, that it was decided that repairs would not do and a new line of pipe would have to be laid. When this was found necessary and the commissioners began their search for pipe, they found the market quite bare of this material. Some half dozen of the leading pipe concerns were wired and in every instance, but one, they were informed that delivery could not be made for many weeks and in some instances till cold weather. One reliable house, Messrs. R. D. Wood & Co., Philadelphia, however quoted six-inch pipe for immediate shipment and at a lower price than the other bidders—\$32.60 for 2000 lbs., f. o. b., Hillsborough.

The Commissioners wired immediate acceptance of the offer and believe they were very fortunate in securing the same. This pipe was laid on Wyman and Oak streets, a total of 1112 on Wyman and 225 on Oak street, at a cost of \$1285.05, which included supplies of all kinds and labor. The work of laying the new pipe under the direction of Mr. W. E. Newman, was accomplished in a very short time and the pipe required no extra corking after completion.

The cost of this work has been divided as follows:

Charged to Renewal Account	\$722 25	
" " Excess Renewal	562 80	
Total		\$1285 05

Renewal Account is finally charged to Income Account, showing in Profit and Loss at the end of the year, while Excess Renewal is permanently charged to Construction.

WATER SHUT OFF SIGNAL.

Ten strokes of the fire alarm BELL twice in succession with an interval of about three minutes between each ten strokes will indicate a complete shut off of water throughout the entire village. This signal will be used whenever it is possible to do so.

Board of Water Commissioners.

Hillsborough Bridge, N. H., Feb. 15, 1903.

We, the undersigned, auditors for the Hillsboro Village Fire Precinct, have examined the accounts of the Water Commissioners, Fire Commissioners and Treasurer, and find all correctly kept and well vouched.

LEON E. ANNIS,
EUGENE C. RUMRILL,

Auditors.

Feb. 14, 1903.

SPECIAL SCHOOL DISTRICT WARRANT.

STATE OF NEW HAMPSHIRE.

To the inhabitants of the Special School District in the Town of Hillsborough, qualified to vote in district affairs:

You are hereby notified to meet in the School House in said district on Monday, the twenty-third day of March, 1903, at seven of the clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the Board of Education for three years.
4. To hear the reports of the Board of Education, Treasurer, Auditors and other officers and committees heretofore chosen, and pass any vote relating thereto.
5. To raise such sums of money as may be necessary in addition to the amount required by Law for the support of schools, repairs on buildings and any other necessary charges arising within said district.
6. To see how much money the district will vote to appropriate for repairs on the building or pass any vote relating thereto.
7. To see what action the district will take to provide more room for the Primary grades, and appropriate such sum of money as is necessary to carry such vote into effect.
8. To see if the district will vote to extend the limits of the Special School District on School street, to include the real estate on the west side of said street, being that part of the Samuel Baker farm now or formerly owned by Andrew J. Barney, or pass any vote relating thereto.
9. To choose Auditors, Agents or Committees in relation to any subject embraced in this warrant.
10. To transact any other business that may legally come before said meeting.

REPORT OF
The Board of Education,

Special School District, Hillsboro Bridge,

FOR THE YEAR ENDING FEBRUARY 15, 1903.

The report in this department will, of necessity, cover more than one year's work as there was no report last year. At the end of the summer term 1901, Prof. Tracy, who had been the successful principal of our schools for two years, resigned to accept a more lucrative position in Claremont. Miss Tewksbury, assistant in the High school, and Miss McKellips of the Grammar school declined a re-election and Miss Blanchard, also of the Grammar school, gave up teaching. These teachers had all done most excellent work and the board was confronted with quite a task in filling these vacancies. Prof. R. B. Barton, who had been for over seven years principal of the Windsor, Vt., High school, was selected as principal and Miss Farman of West Lebanon, Miss Jones of Poultney, Vt., and Miss Kendall, who had previously been one of our teachers, were elected to fill these respective vacancies and the work has gone on uninterruptedly.

During this year the primary room was so crowded, there being more pupils than the seating capacity of the room would accommodate, that the board had to arrange for the lower grades to attend only half of the time and it

was thought that some additional room would have to be provided for this year. The sixth grade, however, which had been previously divided and put into two different rooms, was much smaller than usual and could be put together, thus giving a chance to take two grades out of the primary room and relieve for a time the congested condition. This is a problem, however, to be solved in the near future, as the High school is constantly growing and will have to utilize more room in the building. Then, too, it is much better to have these smaller children out of the building and in a building by themselves as they are constantly meeting with accidents among so many larger pupils. A new building will soon have to be provided for them.

At the end of the fall term, 1901, Miss Grace Powell, who was the oldest teacher in point of service, resigned to become Mrs. Tracy and Miss Mary Powell was elected to the vacancy. Only one vacancy occurred at the beginning of the present year. Miss Jones of the VIII. and IX. grades declined a re-election and Miss Harlow of Somerville, Mass., was elected to her place and has done excellent work.

The High school was much larger at the beginning of this year, necessitating the addition of fourteen seats and thus making the room too crowded. The prospects are that it will continue to increase and as we said before must have more room. Three graduates are now taking college courses and several others are taking professional or scientific courses and more interest is manifested in this department than ever before.

A four years' course of study has been arranged and the classes to graduate after 1903 will each have completed a full four years' course. Two young men of the class of 1902 are now in Dartmouth College and there is no reason why any student, desiring a college preparatory course, should not be able to get a good preparation here at home.

Quite extensive repairs to the outside of the building must be provided for this year. The heating apparatus and the ventilation are both defective and should demand the attention of those having pupils in school.

One year ago we had on hand a good stock of coal for fuel where now we have nothing except a little wood. This fact, together with the resignation of Miss Butler, teacher in drawing, and the employment of no assistant in the VIII. and IX grades has reduced the expenses and left us a much larger cash balance than last year.

The expense per pupil for books, paper, pencils and other supplies has been less than \$2 which is very reasonable. These supplies, if bought by the individual scholar, would have cost at least \$5. The average attendance has increased from 228 to 260, making a proportional increase in cost of supplies, but a less cost per pupil in current expenses.

The different grades are all in excellent working order and in charge of faithful and interested teachers who should have the hearty support and co-operation of every parent in the district.

TOWN DISTRICT WARRANT.

THE STATE OF NEW HAMPSHIRE.

To the inhabitants of the Town School District of the Town of Hillsborough qualified to vote in district affairs.

You are hereby notified to meet at the School House at Lower Village in said district, on the twelfth day of March, 1903, at two o'clock in afternoon, to act on the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees or Officers heretofore chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
7. To see if the district will vote to raise any money in addition to that required by Law for school purposes and repairs of school houses, and if so, how much.
8. To see what sum of money the district will raise for the payment of High School tuitions.
9. To see if the district will vote to authorize the School Board to unite with one or more town districts or special districts to form a supervisory district for the purpose of employing a Superintendent of the Public Schools therein, under the provisions of Chapter 77 of the Session Laws of New Hampshire, 1899; and to raise money to carry such vote into effect.

Given under our hands at said Hillsborough, this fourth day of February, 1903.

JAMES M. RAY,
ORRIN S. HUNTLEY,
LIZZIE S. TUTTLE,

Board of Education.

REPORT OF TREASURER OF TOWN SCHOOL DISTRICT.

The Treasurer of the Town School District respectfully submits the following report for the year ending Feb. 15, 1903.

RECEIPTS.

Feb. 15, 1902, cash in treasury	\$ 67 87	
Received from town treasurer	2209 48	
Tuition	6 75	
Books	1 00	
	<hr/>	\$2285 10

EXPENDITURES.

Paid teachers	\$1855 50	
Wood	7 50	
Insurance	6 00	
Incidentals	71 58	
Transportation and tuitions	149 05	
Repairs	179 07	
Auditors	2 00	
Cash in treasury	14 40	
	<hr/>	\$2285 10

There is also in the treasury a bequest from the late Nancy G. Moore of \$100.00 to be used for the benefit of Division 6, Lower Village School.

On account of having run an extra school in Division 5 and also on account of having done some extra repairs in Division 11 the schools were only in session 29 weeks.

As the district was not made aware of the fact that said district was obliged to pay the High school tuitions, no money was raised for that purpose at the annual school meeting. A special school meeting was called in the fall for the purpose of raising the money. There was \$106.50 due for tuitions at that time. The result of the meeting was that the district authorized the School Board to hire \$53.25. Consequently the account now stands as follows:

EXPENDITURES.

High school tuitions due for the year commencing Sept.,
1901.

Fall term	\$48 00	
Winter term	31 50	
Spring term	27 00
